EDUCATION

University of Houston, Honors College

Bachelor of Science in Computer Science | Capstone: Cybersecurity

Houston, TX

Expected Dec. 2026

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, C++, C, SQL, HTML/CSS, R

Frameworks & Libraries: React Native, React.js, Node.js, Express.js, Spring Boot, Django, PyTorch, Hugging Face

Databases & Event Streaming: PostgreSQL, MySQL, Apache Kafka

Tools & Platforms: Docker, Red Hat OpenShift (OCP), Git, GitLab, GitHub, Azure, Grafana, Postman, MCP, CI/CD, Jira

PROFESSIONAL EXPERIENCE

USAA

May 2026 – Aug. 2026

Software Engineering Intern | Java, Spring Boot, Apache Kafka, Grafana, Postman, MCP

San Antonio, TX

- Built a dashboard for 5,000+ developers to search 1M+ daily Kafka events, cutting event discovery time by 40%.
- Optimized search performance by indexing developer filter trends tracked in Grafana, cutting query times by 60%.
- Collaborated in an Agile team of 8 across SDLC, monitoring 50+ event schemas across bi-weekly sprints.
- Integrated MCP servers into GitLab CI/CD pipelines to automate test orchestration workflows.

NASA

Jan. 2024 – May 2024

Software Engineering Intern | Python, MySQL, Power Automate, SharePoint, CSV

Stennis Space Center, MS

- Developed an active MySQL database enabling access and analysis for 1,000+ NASA-funded R&D projects.
- Automated data extraction and SharePoint syncing via Python (`mysql.connector`, `csv`) and Power Automate.
- Built 20+ dynamic SharePoint views with custom columns, conditional formatting, and indexed filters.
- Conducted bi-weekly reviews with 12 research leads, optimizing layout workflows to cut data lookup times by 85%.

Society of Asian Scientists and Engineers (SASE)

Aug. 2025 – May 2026

Web Development Officer | Google Apps Script, JavaScript, Discord API, SEO, HTML/CSS

Houston, TX

- Streamlined digital operations, communications, and event tracking for 400+ active chapter members.
- Grew active attendance by 25% across 50+ events per semester via custom Discord bots, SEO, and LinkedIn.
- Mentored a Web Development Intern through end-to-end project lifecycles and technical deliverables.

PROJECT EXPERIENCE

SongSwipe | React Native, Expo, Node.js, Express.js, PostgreSQL, Spotify API, OAuth

Aug. 2026 – Oct. 2026

- Developed a mobile app featuring gesture card swiping, audio previews, haptics, and playlist exports.
- Designed a recommendation feed personalizing track discovery using swipe history, genres, and related artists.
- Tested across 10+ physical iOS devices via Expo Go, logging 500+ swipe interactions to refine gesture thresholds.

DiFraud Label Noise Analysis | Python, PyTorch, Hugging Face, scikit-learn

Oct. 2025 – Dec. 2025

- Applied Dataset Cartography on 95k+ DiFraud samples, tracking confidence and variability across epochs.
- Trained and evaluated DistilBERT, SVM, and MLP models across multiple label noise mitigation techniques.

CoogMusic | Node.js, React.js, MySQL, Microsoft Azure, Axios, Git

Jan. 2025 – May 2025

- Collaborated in a team of 4 to build a music streaming web app that supported 30 concurrent campus users.
- Engineered authentication, upload pipelines, playlists, and SQL queries across 10+ REST endpoints.

Point Tracking System Automation (SASE) | Google Apps Script, MySQL

Jan. 2025 – Oct. 2025

- Automated QR attendance pipelines for 400+ members via Google Apps Script, saving officers 5+ hours weekly.
- Maintained 10 years of historical chapter data in MySQL to support officer reference and event trend analysis.
